

## HYDROSTATIC CYLINDER TESTING

Protegis Fire & Safety uses top technicians and equipment to ensure a cylinder's safety and reliability by following Title 49 C.F.R. D.O.T. testing regulations. We proudly offer testing for the following types of cylinders:

## Hydrostatic Cylinder Industries We Serve:

- ◆ Fire Suppression
- ◆ Fire Extinguisher
- ◆ Medical
- ◆ Scuba Diving
- ◆ S.C.B.A.
- ◆ Industrial
- ◆ Beverage
- ◆ And Many More

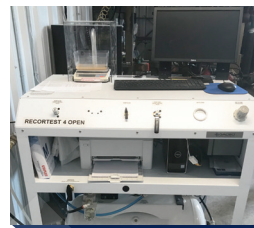

### Galiso Recortest R40

A hydrostatic test validates the structural integrity and safety of a cylinder throughout its service life. Our system - the Galiso Recortest R40 Computerized System - allows for highly accurate hydrotesting

of various pressure cylinders. It works by pressurizing the cylinder and recording the expansion of the cylinder walls, checking for distortion of possible cylinder weakness. The system then documents the testing results which are provided to the customer upon testing completion.

## SERVICE

- ◆ Sprinkler Systems
- ◆ Suppression Systems
- ◆ Fire Alarm Systems
- ◆ Security Systems
- ◆ Backflow Testing
- ◆ National Accounts

### D.O.T. CERTIFIED TESTING FACILITIES

Serving The Following Locations

Akron  
Bowling Green

Cambridge  
Cincinnati

Cleveland  
Columbus

Port Clinton  
Toledo

## PARTS

- ◆ Fire Alarm Parts
- ◆ Fire Extinguishers
- ◆ Security Parts
- ◆ Energy Management
- ◆ New, Refurbished, Legacy
- ◆ Buy-Back Program
